

LAR APPROVED ANIMAL VENDOR LIST

Most Recently Updated: **Friday, January 09, 2009**

The commercial suppliers listed have a known rigorous health surveillance program and a good track record of healthy colonies. If you plan to order animals from one or more of these vendors, check the YES box to the question, "Will animals will be obtained from a LAR approved vendor?" when you complete a new protocol application (Section 1: Animal Requirements & Husbandry). Upon approval, you may order animals from any of the vendors listed for your species. In Addition, you may change vendors without first notifying the BIACUC as long as the alternate vendor is on the **currently** approved list at the time of the request or purchase.

This list will change over time with additions or deletions based on health status of the supplier. It is important to download a new list EVERY TIME you submit a request for animals (for new protocol, amendment, or purchase).
